Vol. 26

No. 6

**GRO's 28th Annual Yard
and Garage Sales
June 9 and 10**

Once again it's time to get rid of your unwanted items and recycle them through GRO's annual Recycling Yard and Garage Sales. To get the most bucks for your beauties:

- display your items attractively
- price everything so people don't have to ask
- have an extension cord so people can see appliances work
- assign not-quite-salable items to a free (or free with purchase) box or table to draw browsers
- have lots of change on hand
- provide bags, boxes, and newspapers for purchases
- take names and numbers on low offers, so you can call at the end of the sale if an item hasn't sold, and remember, you can always recycle your purchases next year.

ADVISORY VOTE

The plans for 4711 North Talman have been revised and the zoning request has changed. Instead of a third floor addition, the owners are requesting a zoning change from RS-3 to RT-4 to accommodate a rooftop balcony.

The City will require stairs at the front and back (two points of egress). The zoning will revert to the original RS-3 zoning once the project is complete.

A GRO Advisory Vote will be taken to make a recommendation on the project. The Alderman's office also indicates there will be a community meeting - with advance notice to neighbors within 250' of the property.

To vote on the issue, your dues must be current.

Please bring your membership card to the meeting to register your vote.
